Hi Jess!

If you can't make it in- you, Harriet, and President Standifer are welcome to call in to the meet-me-line below, but you will all need to call in from the same room (only 3 phones can call into these lines, and 2 EPA folks including me are already calling in. Meet-me-line is:

**Non-Responsive** ; code is: **Non-Responsive** I can email your letter to them later if you want.

Katherine

Hi Katherine, darn I should have asked to go in a day early for this meeting but the weather said it was supposed to be good, well it is foggy and Spornak has not had a flight all morning. If we are not able to make this meeting is there a teleconference number or possibly some way I can get the "Changes We See in Tyonek" letter to them?? I have added some more stuff to it, getting some good stuff from people.
